POSITION DESCRIPTION & REPRESENTATIVE DUTIES

This position is located in San Francisco and reports to the Assistant Information Systems Manager, Applications. The Web Developer will support the court's implementation of Amazon Web Services for the courts Internet site and implementation of Microsoft SharePoint Server Enterprise for the court's intranet. This position is also responsible for designing, modifying, and adapting web applications/sites. Representative duties include:

- Administration of court's Internet web page, CMS, and SharePoint intranet sites.
- Apply working knowledge of web programming languages, platforms and methods such as: PHP, Microsoft SQL Server, MySQL, Linux, Windows, Apache/nginx, HTML5 and relational database design to development projects.
- Architecture and ongoing administration of the court's Amazon Web Services implementation including administration of data stored on Amazon's Simple Storage Service (S3), data accessed using Amazon CloudFront, and Amazon Relational Database Service (RDS).
- Support technical functionality and usability of the CMS, custom development, administration and enhancements to the CMS application including upgrades or migrations as necessary.
- Design and develop web applications, reports, and supporting database schemas. Provide end user support and document support requirements for web applications.
- Develop web sites and pages that adhere to current best practices in user interface design.
- Maintain good rapport with customers throughout project to provide excellent customer service and align expectations with deliverables.
- Perform advanced troubleshooting and problem solving individually and with teammates.
- Assist with training end users and information technology staff.
- Perform other related duties or special projects, as assigned.

QUALIFICATIONS for CL 28

- High school graduation or equivalent; college degree preferred.
- *At least two (2) years of progressively responsible technical experience** which provides knowledge of designing, implementing or maintaining SharePoint websites, and/or LAMP-stack websites, including the completion of projects involving web page design and/or web application development and database administration. One (1) year of experience must be equivalent to work at the CL 27 grade.
- *At least two (2) years of demonstrated knowledge and experience** in designing and maintaining web applications using web programming languages, platforms and methods such as: PHP, Microsoft SQL Server, MySQL, Linux, Windows, Apache/nginx, HTML5 and relational database design. One (1) year of experience must be equivalent to work at the CL 27 grade.
- Demonstrated proactive and responsive customer service skills.
- Excellent written and verbal communication skills.
