Re: Public Records Request

Dear Ms. Henry:

The Governor's Office is in receipt of your email to Linda Stiles dated May 7, 2012 at 8:13 pm and hereby responds. Your public records request listed seven categories of information relating to recent Board of Executive Clemency appointments. The Governor's Office promptly complied with the request and you have acknowledged receipt of the production.

Despite the assertion in your May 7, 2012 e-mail, the Governor's Office has been fully responsive to the individual categories listed in your public records request. A response to a public records request would not include documents that are confidential or privileged under Arizona law, such as documents related to an executive session. To the extent any documents were not produced, the Governor's Office is not required to produce an index under A.R.S. § 39-121.01.

Sincerely,

A handwritten signature in black ink, appearing to read "Joseph Sciarrotta, Jr.", written over a horizontal line.

Joseph Sciarrotta, Jr.
