Dear Vendor:

The US Court of Appeals is requesting a GSA Schedule quote to remove an existing APC Silicon DP-340E and its batteries, with a new APC Schneider Electric Symmetra UPS and one year maintenance per attached specifications.

Ship to:

US Court of Appeals
95 7th Street
San Francisco, CA 94103

Please include the following in your quotation:

- All costs for new equipment, installation, and testing
- All costs associated with removal and proper disposal of existing unit's batteries
- GSA Contract Number
- Where to send purchase order, vendor remit information, and Tax Identification Number
- Specify any items **not** included on your GSA Schedule
- Specify in-stock items and estimated shipping date after receipt of order
- Where products will be shipped from
- Include all costs, fees, freight, and shipping charges
- Before submitting your quote please review the link below:

<http://www.uscourts.gov/procurement/clauses.htm> (See Appendix 1B)

Quotations that meet all of the above requirements will be considered and the award will be made to the vendor based on the lowest price of all items.

E-mail your quotation to: john_lansing@ca9.uscourts.gov or send fax to John Lansing at (415) 355-8097 no later than 5pm, September 8, 2014.

Sincerely,

Design Notes for ISXD Design 1 :

1. BOM has been modified manually after Design/Configuration Save
2. A 25 node 1 year RMS entitlement is included at no additional charge with Start-Up
3. HAZARD OF EQUIPMENT DAMAGE. This UPS system is not compatible and should not be used to protect regenerative loads (loads generating power back to the network), such as photovoltaic systems and speed drives. Failure to follow these instructions could result in equipment and/or UPS damage and would result in void of UPS warranty.
