

# NINTH CIRCUIT CASE MANAGING ATTORNEYS

The Ninth Circuit's Case Managing Attorneys work as a liaison between the Court and CJA panel attorneys on funding and case management issues. Our goals are to enhance the quality of representation in high cost cases while promoting cost-efficient practices.

We can assist with:

- Attorney and service provider budgets
- Discovery management strategies
- Use of shared service providers
- Extraordinary or unusual expense requests
- Attorney training on CJA and billing issues
- Judicial training on CJA and billing issues

Ninth Circuit CJA policy requires budgeting in all capital cases and strongly encourages it for any individual CJA representation likely to exceed \$42,000 in costs.

We're here to help, so don't hesitate to contact your Circuit Case Managing Attorney.
