"Just a quick note to let you know how thrilled I am with GoDaddy.com. I had heard your ads several weeks ago on your Podcasts, and since then I transferred my 10 existing domains to them AND I opened a web host account and transferred my commercial photography business website to GoDaddy.com.

When I transferred the web site --- it was amazing how quick and painless it was. The whole process of opening and setting up my new web hosting account and FTPing the site to GoDaddy.com took less than 15 minutes, and it took only about an hour for the DNS change to propagate! GoDaddy.com's email-based instructions were very thorough, and their web-based site controls are very easy and intuitive to use.

Finally, moving my domains and my Web site to GoDaddy.com has saved me about 60% per year!!! I am extremely pleased with GoDaddy.com... thanks for the recommendation!"
