All eVoucher programs have been updated so that associates working in the firm of appointed counsel must bill their time on appointed counsel’s voucher, separately from appointed counsel’s time. When appointed counsel anticipates using the services of an in-house associate attorney in a given case, counsel must ask the court for permission to add the associate to that particular eVoucher appointment. The request must confirm that the associate is an employee in counsel of record’s firm, must provide the associate’s billing rate and the nunc pro tunc date, and must state whether the associate also provided services in the district court. Requests to create an associate record can be submitted via email to Susan_Gelmis@ca9.uscourts.gov.

If you wish to use the services of an additional attorney or co-counsel from within or outside of your firm, or an associate counsel outside your firm, you must use the attached form requesting advance authorization to obtain that relief. Submit the request and completed form via email to Susan_Gelmis@ca9.uscourts.gov.
